COUNCILMEN VOTE TO RAISE TAX RATE

Attribute 9 Cent Boost This Year To Buses, Streets

Daly City raised its taxes 9c per $100 of assessed valuation by unanimous vote of the city council Monday evening.

An even rate of $1.00 was set for the fiscal year 1940-41, as compared with 91c for 1939-1940.

Unusual expenditures during the past year necessitated the increase in taxes, Mayor John J. Fahey said. Speaking for the city council he explained that heavy drains on the city's resources during the past year such as the South End streets project and the buses had left the general funds too low to take care of expenses for the coming year.

The increase in taxes is expected to raise an additional $5500. Economy measures are being taken in all departments to prevent another shortage of funds.

The total combined rate as set by the council Monday night breaks down as follows:

General Government	$ .785
Library Maintenance	.045
Unbudgeted Reserve	.05
Total General Tax Rate	$ .88
1938 City Hall Bonds and Interest (Special tax rate)	$ .06
1924 Water Works Bonds and Interest	.052
1937 Fire Alarm Bond Fund	.008
Total Special Bond Rate	.12
Total Combined Rate	$1.00

Annex No. 2 and 3 are excepted from the payment of the water bond fund rate of 5.2 cents.

Other business transacted at Monday evening's meeting included the cross-examination under oath of subpoenaed witnesses in the recent dispute involving bus drivers' overtime. Bus drivers continued to insist that former

Library Increases In Popularity

More than 48,000 books and periodicals were checked out to Daly City library patrons during the last fiscal year, Henry T. Sundermann, chairman of the library committee, reported to the city council Monday evening.

In addition to a circulation of 48,784, the library added 727 new books to its shelves, making a total of 7,015 books now available to local residents.

Other facilities include 5,183 pictures, 404 pamphlets, 5 current newspapers and 22 periodicals.

"These figures tell just one half of the story," Councilman Sundermann said today. "They do not tell of the special attention given student and adult patrons, of the care and patience taken to make the library a pleasant and helpful center of learning and recreation.

"Each month there are approximately 50 new applications for membership in the library," Sundermann continued. "This indicates in some measure the rapid expansion of the library and its popularity.

"Mrs. Jean O'Rourk, librarian, and Miss Mary Lewis, assistant, have done a splendid job. We cordially invite the public to avail themselves of the library's facilities."

Shirley Temple Visits S. F. Peninsula

Shirley Temple, million-dollar darling of the movies, captivated several hundred adult and child fans in San Mateo this week-end with a four-day visit in person to the Peninsula.

Greeted effusively by the San Mateo chamber of commerce, the child star discussed her collection of 1500 dolls, admired Peninsula flowers and visited with her brother at Stanford university.

Registration Of Aliens Begins

Application forms for alien registration are now available at the Daly City post office for foreign-born residents who will be required to register and be fingerprinted in accordance with the Alien Registration Act recently passed by Congress.

Set Date For Public Hearing On D. C. Crossing

The State Railway Commission will hold a public hearing at the city hall next Wednesday, September 4, on Daly City's application for a crossing at Knowles avenue.

All interested persons are urged to attend the meeting, which will convene at 10 a. m. The proposed crossing would make possible a through connection between Mission street and Junipero Serra boulevard along Knowles avenue.

Such a through street would facilitate traffic into the heart of Daly City's business section and aid direct traffic between here and the Lake Merced district, officials said.

Residents who desire to attend the meeting are asked to contact City Attorney Rudolph Rapsey between now and next Wednesday.

Present Police Chief With Jewel-Set Badge

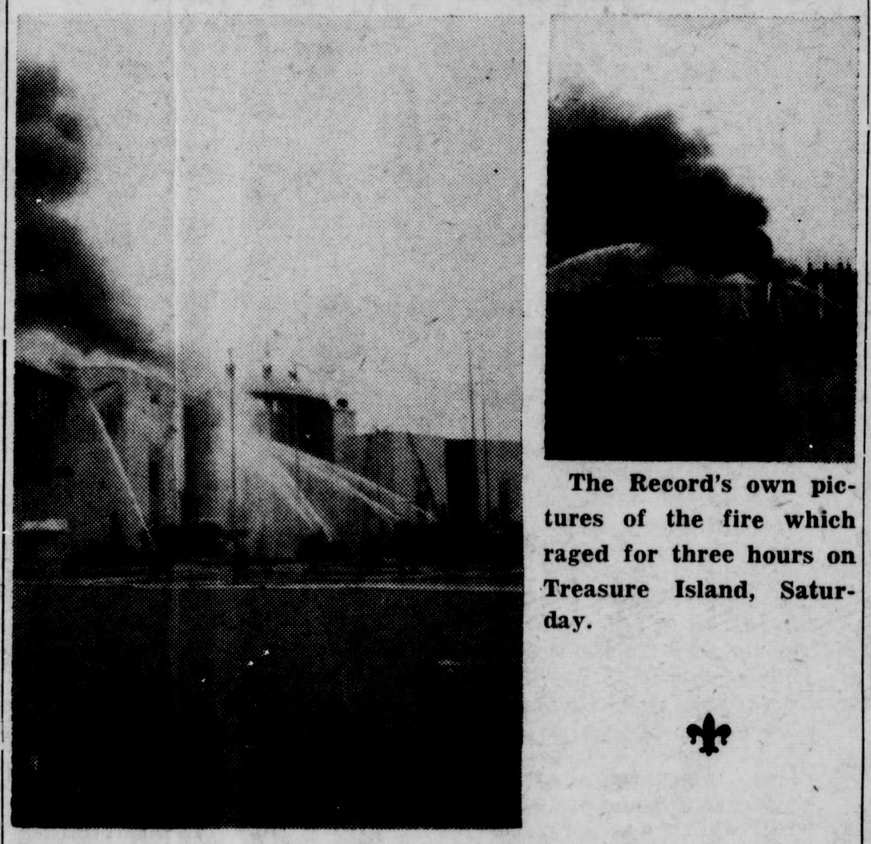
Police Chief James G. Reardon lost his badge last week. At any rate, he sent it out to be cleaned, and there seemed to be some unavoidable delay in getting it back.

But today the chief wore a broad smile as he proudly displayed his badge, with a brand new diamond sparkling in the center of it.

Swathed in tissue paper the star emerged from its hiding at council meeting Monday evening. Mayor John J. Fahey presented it to the surprised police chief as a token of regard from the people in the South End of the city.

"That was certainly a wonderful gift," Reardon said today. "I want to tell all those people down there in the South End that I certainly do appreciate it."

Treasure Island Fire



The Record's own pictures of the fire which raged for three hours on Treasure Island, Saturday.

Racing with lightning speed through the walls of the California building, the roaring flames left the $350,000 structure in ruins.

The spectacular inferno, fed by the light wooden construction of the building and the heated air under the two-story central dome, was out of control for nearly three hours.

Black smoke hung high over the southeast end of the island in a vast pillar.

Before thousands of Exposition visitors who crowded the Temple compound across the lake, firemen battled the flames from aerial towers and wet down the roofs of the threatened adjoining Federal and San Francisco buildings.

The Record, strangely enough for a weekly, was one of the first newspapers to cover the disaster. A staff member who had decided to "get away from newspaper work for one day" left for Treasure Island on the first morning boat, Saturday. Needless to say, visits to the Indian exhibit and rides on the Gayway were quickly forfeited for the more exciting business of covering the year's greatest holocaust.

Boys Admit Part In D. C. Street Riot

Eight San Francisco boys sheepishly admitted their part in the recent street riot in front of Little Italy hall to Judge Wade H. Clay on Saturday. They denied that they had started the fight and claimed that they were outnumbered three to one. One of their number, bashed over the head in the fracas, was unconscious on the street when Daly City police arrived.

No member of the opposing side in the strife was apprehended. The miniature war was reputed to have started when a San Francisco boy attempted to crash a party sponsored by a local club.

A severe reprimand was administered to the youths by Judge Clay and a fine of $12 imposed to pay for blankets which police said

Judge Reprimands Thoughtless Motorists

Severe reprimands were administered by Judge Wade H. Clay this week to three Daly City autoists who had been cited to appear before him for driving too close to fire apparatus answering an alarm.

"This practise is a dangerous one," Judge Clay said, "and works as a severe disadvantage to the firemen in the efficient performance of their duty."

Judge Clay concluded his warning by pointing out that such an interference with the work of the fire department carries with it a penalty of fine or imprisonment. This rule will be rigidly enforced and all motorists are cautioned to take care.

Bank Of America Loans $177,422.27 Here

In connection with the Federal Housing Administration's announcement of its sixth anniversary, F. Erickson, manager of the Daly City branch of Bank of America, stated that to date Bank of America, through FHA, has loaned $177,422.27 in this community to finance the building of 50 homes.

Erickson further stated that since the FHA's inception six years ago, Bank of America has made over 40 per cent of all FHA loans in California. At present it has 180 million dollars in outstanding FHA loans covering 47,000 homes throughout the state, he disclosed.

"Bank of America was the first bank in the country to use newspapers to advertise FHA loans," Erickson said, "and it points with pride to its first FHA newspaper advertisement which was released on August 14, 1934."

"Bank of America alone does more FHA financing than the combined total of all banks in any state in the Union," he declared. "It does nearly one tenth of the total FHA business in the United States. To date, this represents nearly one hundred million man hours of labor for the building industry and allied trades," he said.

Artillery Now Accepts Recruits

Recruits are now being accepted by the Two-hundred-and-fiftieth Coast Artillery, San Francisco's big gun regiment, to replace married men and others with dependents, it was announced today.

"Now is the opportunity to get in on the ground floor," officials said. "Here is the chance for the young man to learn to defend; and at the same time, be prepared to better himself and become in turn an instructor when the large bodies of new men are conscripted."

The colorful regiment, whose motto is "We Defend the Western Coast," is preparing to take the field for a year's training. Learning to ward off blows struck here by possible enemy ships and airplanes is a highly technical service, said the authorities, and requires considerable training.

Recruits should see Captain H. D. Swett, Battery B, 250th Coast Artillery, Room 204, State Armory, Fourteenth at Mission. Applicants must be between the ages of 18 and 45 and single.

Soldavini said that Buick in 1941 will launch the largest and most aggressive sales program in the company's history with a minimum objective of 300,000 cars, which is substantially above this year's all time high of 283,000 Buicks.

As soon as Soldavini returns from the southern city the new Buicks will be described for Daly City and Colma autoists.

Auctioneer Is Boss

American courts have held that an auctioneer is not compelled to accept the highest bid, according to Collier's. In a Minnesota case, a house was sold to the first bidder for $675 after the second and only other bidder had offered $680. The auctioneer refused to consider such a trifling increase. So the second bidder sued but lost his case on the ground that no contract exists until the offer to purchase is accepted by the auctioneer.

Stockings for a Queen

Weaving is one of the oldest arts, but knitting was not discovered until about 1400. Some 200 years later, Rev. William Lee of Nottingham, England, invented a knitting machine. He knit a pair of stockings for Queen Elizabeth but she was reported as disappointed because they were coarse. Rev. Lee then perfected a new machine, and knit the queen a pair of silk stockings.

Valuable Copper Sludge

Precious metals are recovered from the sludge of copper refineries, says Industrial and Engineering Chemistry. Cadmium is a by-product of zinc smelting. Selenium, now widely used in making ruby-colored glass, was once a waste of copper refineries, and antimonial lead is produced by working up the scum from softening furnaces in lead refining.

Arbitrary Date Line

The International Date Line is an irregular line which is drawn somewhat arbitrarily on the map of the Pacific ocean, near the 180th meridian of longitude. This line marks the place where navigators "change their date" on the trans-Pacific voyage. The line is drawn on the map in a general north-and-south direction, separating the islands of the Pacific ocean in such a manner that all those in the east carry the same date as the United States, and those in the west the same date as Japan and Australia.

City Officials Attend Conclave

Mayor John J. Fahey, Police Chief James G. Reardon, Councilman Edmund Cavagnaro and Councilman Henry Sundermann represented Daly City last Thursday evening at the Peninsula meeting of the League of California Cities.

Close to 100 officials attended the Benjamin Franklin hotel dinner and later inspected the new San Mateo civic center.

The officials heard Richard Graves of Berkeley, league executive secretary, speak on the services provided by the organization; enjoyed an entertainment program of songs and dancing, and elected John W. Coleberd, city attorney of South San Francisco, to succeed Mayor Lorenz Costello of Palo Alto as president of the Peninsula Division.

Graves said that the league's activities had led to California cities securing $30,000,000 in revenue which had not previously gone to them. He predicted that the league's investigation of fire insurance rates on city properties would result in a 50 per cent reduction in premiums, with better coverage.

The new Fiesta Bowl on the fairgrounds will be the scene of ceremonies and special entertainment to be staged by the Mission Trails delegations.

A PROCLAMATION

The American heritage of individual freedom and of government deriving its power from the consent of the governed has from the time of the fathers of our Republic been proudly transmitted to each succeeding generation, and to us of this generation has fallen the task of preserving it and transmitting it to the future. We are now engaged in a mighty effort to fortify that heritage.

Mindful of our duties in the family of nations we have endeavored to prevent the outbreak and the spread of war, and we have raised our voices against international injustice. As Americans and as lovers of freedom we are humbly sympathetic with those who are facing tribulation in lands across the seas.

When every succeeding day brings sad news of suffering and disaster abroad we are especially conscious of the divine power and of our dependence upon God's merciful guidance.

With this consciousness in our hearts it is seemly that we should, at a time like this, pray to Almighty God for His blessing on our Country and for the establishment of a just and permanent peace among all the Nations of the world.

Now, therefore, I, Franklin D. Roosevelt, President of the United States of America, do hereby set aside Sunday, September 8, 1940, as a day of prayer; and I urge the people of the United States, of all creeds and denominations, to pray on that day, in their churches or at their homes, on the high seas or wherever they may be, beseeching the Ruler of the Universe to bless our Republic, to make us reverently grateful for our heritage and firm in its defense, and to grant to this land and to the troubled world a righteous, enduring peace.

In witness whereof, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

Done, at the City of Washington this seventh day of August, in the year of our Lord nineteen hundred and forty, and of the independence of the United States of America the one hundred and sixty-fifth.

(Signed) FRANKLIN D. ROOSEVELT

Registration Of Aliens Begins

refuse to register or be fingerprinted. Postal authorities are making every effort to impress upon the nation's foreign born and unnaturalized people that the registration is not a discrimination against them but simply a necessary step to provide the proper governmental authorities with information similar to that which every other country obtains from its alien elements.

"All aliens over fourteen years of age must be registered and fingerprinted," officials said, "and alien children under fourteen must be registered by their parents or guardians.

"Registration, including fingerprinting, will not be harmful to law abiding aliens. All records will be kept secret and confidential and will be made available only to such persons as may be designated with the approval of the United States Attorney General.

"Generally speaking, foreign born persons who have not become citizens of the United States are aliens. Also, persons with first citizenship papers who have not been naturalized must register."

Egg Experiment

The University of California experimented for a year to ascertain if egg production could be increased by keeping the hens in cooled henhouses. The answer was, "No." Only one thing was ascertained, the university reported, and this was that in the hot days, the hens were noticeably more comfortable in the cooled henhouses.

What To Do When Baby Breaks The Best Plates

Do you often wonder what makes your child do the things he does? Do you wish you knew how to correct his faults more effectively? Do you wish you could give him understanding help in learning to amuse himself?

All these questions and many others will be discussed in the new series of In-Service classes which begin next week at the No. 1 firehouse, 188 Santa Barbara avenue, under the direction of the WPA Recreation department.

"All mothers are cordially invited to attend these classes," said Bruce H. Boynton, local Recreation chief, today. "Attending the course will be approximately 25 Recreation leaders from Daly City, San Bruno and South San Francisco. All of us are glad to welcome the public, and feel sure that mothers will enjoy the course."

Convening at 9 a. m. every Tuesday and Thursday, the classes will last until 1 p. m. Included among the subjects will be the theory of the growth and development of the child, instruction in supervising games, and a study of quiet games and craft work for various age groups.

"Mothers are cordially invited to visit our class next Tuesday morning," said Boynton. "There is no charge of any kind."

The course is expected to last approximately eight weeks.

Topics to be discussed at the convention include many points of vital importance in the administration of civic affairs.

Student Government

With a splendid corps of officers and under the supervision of Mrs. Effie Andersen, Jefferson's Student Government got under way this week with a bang.

Mrs. Andersen stated that the regular meetings of executive board will be held as usual, on every Tuesday morning at 8 a. m.

This year's executive board is composed of: Bill Rigler, president; John Razzari, vice president; Barbara Foreman, secretary; Eugenia Filios, treasurer; Herb Poddig, judge; Bab Johnston, sergeant at arms; Eldon Prziborowski, yell leader. Although the class presidents and the president of the C. S. F. have no vote in the meetings, they are welcomed as honorary members.

Although the members of the faculty act as advisors for the students, Jefferson is pretty proud of the fact that almost all of the activities and rules are laid down by their student council and carried out by their very efficient law enforcing system.

Classes

Calling all politicians—get out your election cards and get your platforms ready. Jeff is to hold its class elections soon.

It has not been definitely decided by Student Body President Bill Rigler, as yet, but it is rumored that it will be held in a week or two. So start looking over your class mates and get your ideas formed and then go to work and get him or her elected.

For the qualification to hold an office just ask any of your student office holders and they'll be glad to give you the information.

Campus Fashions

Are you having a hard time stretching that allowance over all the school expenses, and a new dress for school besides? Well if you are like I am, that is one of my major problems these days.

Here are a few tips that may help you thrifty gals. This will do wonders in freshening up the old to the new. Have you ever thought of putting on a little crisp white peter pan collar and matching cuffs? You will be surprised how this simple little item will change the whole appearance of your dress. Or have you ever thought of wearing a chiffon scarf and a matching scarf around your waist?

A most unique and girlish outfit to add new appeal to your dresses are those darling pinafores. They are very inexpensive and launder up beautifully.

For that "Sunday-Go-To-Meeting" suit, here is a little advice. A form fitting suit with the jacket flared a little around the bottom—and instead of having the opening smack down the front, use the off-center line. It is becoming quite fashionable and is very flattering to the figure. For your purse and hat, get a new smart and very fashionable suede in some bright color. A large clip on your lapel will add a lot to your outfit.

Sports

Wa! Hoo!' Ahh! Wa!

The Jefferson Indians have put on their war paint and feathers, and started off on their hunt for scalps. The boys were issued their suits and started out on the road to fame Monday. Although the squad is almost all new, from all the comments around the school our heroes looked pretty good at their first practice.

Chief "School Spirit" said today, "Me gottem heap swell place to hangum biggum scalpy my mighty warriors intend to claim this season."

So If you want to see some **real** excitement, some **real** fun, some **real** school action and some REAL football just watch our "Jeff" boys go to town.

Music

Beware!

Be on the lookout for people with "talent." It is rumored they are in the vicinity of the school.

If any one knows of the whereabouts of any of these talented people be sure to report at once to "Swing King" Lembi or to any of the members of his posse.

REWARD!

50,00 times more fun and pleasure with your Indians of Rhythm is promised with a bigger and better unit to give you bigger and better entertainment.

News of the Entertainment World

A STRANGE MEETING

Brian Aherne as William Essex and Madeleine Carroll as Livia Vaynol, two of the exciting people who point up the tense drama of Edward Small's screen version of "My Son, My Son!" on view at the Daly City theatre tomorrow.

"My Son, My Son" Hailed Film Triumph

Headed by a cast of superlative players and starring Brian Aherne, Madeleine Carroll, Louis Hayward, Henry Hull, Josephine Hutchinson, Sophie Stewart and Laraine Day, Edward Small's film production of Howard Spring's international best-seller, "My Son, My Son!" is scheduled for its premiere showing at the Daly City theatre tomorrow.

The story of "My Son, My Son!" travels through several cities and country sections of England and covers a period of more than 25 years.

Among the many sets constructed for the production, one of the outstanding shows the slums of Manchester in the latter part of the nineteenth century. Schulze unearthed and old photograph showing just such a street and from this photograph the set was designed, built and decorated.

Among the other spectacular sets constructed for the film are included a massive beach home known as "Heronwater" and "The Beeches," representing the country home of William and Nellie Essex after the former becomes a famous novelist.

The story of "My Son, My Son!" revolves around the dreams of two men who are life-long friends. The novelist William Essex, played by Brian Aherne, and the furniture designer Dermot O'Riorden played by Henry Hull, get married while they are still poor and unknown. When each has a son, they make their plans for their children. Essex plans a glorious future for his son. O'Riorden, an enthusiastic patriot, looks forward to the day when his son will return to Ireland.

How these plans are carried through amid changing times and unexpected drama carries the story of "My Son, My Son!" through many exciting scenes.

Flora Robson Comes To S. F. In Mystery Drama

An event of the greatest interest to local theatregoers marks the coming engagement of the distinguished English star, Flora Robson, in the thrilling murder-mystery drama success, "Ladies in Retirement," which comes to the Curran theatre, San Francisco, for two weeks beginning on Monday evening, September 2.

"Ladies in Retirement" comes here after its long engagement at the Henry Miller's theatre in New York.

Broadway had been waiting for a really satisfying murder-thriller for some seasons when Gilbert Miller produced "Ladies in Retirement" at the Henry Miller's theatre last season. This spine-chiller from the able typewriters of two prominent English dramatists, Edward Percy and Reginald Denham, exactly filled the bill and New York theatregoers have been enjoying a season of hair-raising thrills as well as some of the finest acting they have seen for many years. Flora Robson, favorite among the younger English character actresses, accepted Miller's invitation to star in the colorful role of Ellen Creed who, possessed by a seeming mother-complex inhibition toward her two slightly demented sisters, murders her benefactress so that she may protect these two helpless dependents from want.

Miss Robson, appearing for the first time upon the American stage, won an immediate and enthusiastic success.

The entire original New York cast and production will be seen when "Ladies in Retirement" comes to the Curran.

Issue Call For Home-Town Talent

Another call for home-talent was issued this week by Miss Marie Burton, dramatics instructor for the WPA Recreation department.

"Everyone is welcome to join our Dramatics club," said Miss Burton. "It's a lot of fun, and we have a splendid group this year. We hope to be able to put on several productions during the winter."

The dramatics group meets every Tuesday at 7:30 p. m. at the Little Theatre in the Jefferson Union high school. In addition to regular plays and readings, radio technique will be studied this season every Thursday from 7:30 to 10 p. m. No charge is made for either class.

and Nevada, including the best cow hands on the Pacific Coast will be there to participate in numerous **special events.**

"People who have never seen a real Wild West Rodeo will be **thrilled by the continuous action** and color which is always present at such events. Those that have followed rodeos will appreciate the type of livestock that is being used in this show and top hand cowboys who will be there to display their skill in the various events," said Eddie Allen, local committeeman today.

There will be a matinee and evening performance at 2 p. m. and 8 p. m. each day of the rodeo, with a big parade before each performance.

Sponsors of the World's Fair Rodeo, the San Mateo County Sheriff's posse, are presenting the queen of the rodeo with a beautiful Palomino horse, saddle, bridle and blanket.

"Come and see a typical nineteenth century cattle round-up on the twentieth century man-made Treasure Island," urged the rodeo committee.

Weed Growth

Proof of the tremendous strength of growing weeds was shown at Winnipeg, Manitoba, when a piece of lumber an inch thick, through which had grown a dandelion root, was found in a lumber yard.

SFPI Seeks Support—

Determined to exert every effort to continue the advertising program so successfully carried on last year, directors of San Francisco Peninsula Inc. at their special meeting last week decided to approach all city councils on the Peninsula again.

Confident that the Redwood City council would reconsider previous action and renew a $1300 annual appropriation, directors said today that failure of expected support might jeopardize the entire program. The SFPI campaign has been hailed in many publications as the most successful civic advertising movement in the country.

Soya Bean II Comes To Untimely End

Boy Scout Troop No. 141 this week lamented the untimely demise of Soya Bean II, the famous "troop car" which they so hopefully christened with pink lemonade only five months ago.

Soya Bean II met a violent end, last Tuesday, when she slipped a gear as she was standing outside the home of her owner, Scoutmaster Joseph Straughan.

Careening crazily down Los Banos avenue, the faithful old car took a spectacular nose dive into a telephone pole at San Diego avenue and all was over.

As the dust slowly settled, Scoutmaster Straughan, the local police and Daly City Garage men all sorrowfully agreed that Soya Bean II would probably never run again.

"These will be very impressive occasions," Kraus said today, "and the public is cordially invited to keep these dates in mind."

Mrs. Meeth Wins National Cooking Contest

Mrs. Anna Pauline Meeth, 368 Westlake avenue, who sent in a recipe "just for a lark" was last week announced winner of a national cooking contest.

The small gray-haired woman laughed today as she explained that she was in bed recovering from the "flu" when first she noticed the announcement of the weekly recipe contest in the Sunday section of the San Francisco Examiner.

"No, I don't belong to a Contest Club," she told the press. "I saw this contest, so I just sent my recipe in for the fun of it."

Mrs. Meeth is still a little bewildered by the telephone calls and publicity which have come her way during the past few days. But she is very proud of her prize-winning recipe for "Indian Sweet Cob Corn," which has been handed down in her family for gererations.

"Many is the time I've seen the Indians come to the doorstep in all their paint, begging for a bit of baking powder bread in exchange for sweet corn," Mrs. Meeth reminesced as she spoke of her life in Northern Michigan.

"That was thirty-one years ago," she continued, "before I came to Daly City. My grandparents dealt with the Fox and Chippewa Indian tribes there before I could remember."

It was sometime back in those historic pioneer times that the Indians divulged their favorite way of cooking sweet corn to Mrs. Meeth's family. Since then, the recipe has been slightly altered and changed, but none of its essential goodness lost.

"The green husks impart a delicate flavor to this dish that cannot be acquired any other way," Mrs. Meeth explained. "Try cooking your corn 'Indian style' and you'll never go back to any other method."

INDIAN SWEET COB CORN
The Redskins Knew How to Make It

Remove all silk thread and outer husks, pull all remaining husks back, wash well in plenty of water to thoroughly clean. Then turn husks back to tie at top and middle, wash plenty of the outer green husks and place in bottom of deep saucepan, making a thick layer; place wrapper cobs of corn in pan and thickly cover with remaining clean husks.

Cover with cold water and add about one teaspoonful of granulated sugar to about twelve ears of corn and the strained juice of one whole lemon to the whole saucepan of water.

Bring slowly to the boiling point, then simmer gently for a few minutes and then keep hot, but do not continue the boiling. Move husks aside, take out required cobs, remove husks and serve with plenty of butter and salt.

If any cobs are left over, just leave them in the pot of water still covered with the husks and heat slowly the next day. Leaving corn in hot water improves this delicious vegetable. Second day serving has even a better flavor and the Indians know their maize. They are the original authorities on this recipe.

Mrs. Meeth says that the recipe is also delicious with the use of maple syrup in place of the sugar.

Avoid Labor on Labor Day

By BETTY BARCLAY

Labor Day Proclamation for Cooks: Take it easy on Labor Day. Enjoy the parade, the picnic, or the visiting guests at home. Here are recipes that will fit into any kind of a Labor Day you may be planning — or any other day when you want delicious dainties without labor:

Quick-Frozen Scallops

Here's a bit of ocean goodness that's a treat, whether you live hundreds of miles inland or at the surfline. For quick-frozen foods are all ready to cook or serve when you take them from their cartons and thaw them; and they were chosen for their sweet, delicate flavor and tender quality when they were quick-frozen.

Here is a quick, easy way to serve quick-frozen scallops. Place scallops in greased broiling pan, brush with melted butter, and sprinkle with salt and pepper. Broil at medium heat 7 minutes. Turn scallops, top with bacon, and broil 10 minutes, turning bacon after 5 minutes.

Lemon Gelatine Ring Salad

2 tablespoons (2 envelopes) gelatine
¼ cup cold water

Soak 5 minutes. Add:

1¾ cups boiling water
½ cup lemon juice
¾ cup sugar
Few grains salt
2 cups cottage cheese

Pour into a 9-inch oiled, ring mold. Chill. Unmold on serving plate. Fill center of ring with:

2 cups orange segments
1 cup seeded grapes

Garnish with mint or lettuce hearts and small clusters of grapes. Serve with Lemon Mayonnaise. Serves 8.

Magic Blackberry Refrigerator Cake

1⅓ cups (1 can) sweetened condensed milk
¼ cup lemon juice
¼ teaspoon lemon extract
2 cups fresh blackberries
2 egg whites, stiffly beaten
24 vanilla wafers

Blend together sweetened condensed milk, lemon juice and lemon extract. Stir until mixture thickens. Add blackberries. Beat egg whites until stiff and fold into mixture. Line narrow oblong pan with wax paper; cover with filling. Add layer of vanilla wafers, alternating in this way until filling is used; finishing with layer of wafers. Chill in refrigerator 12 hours or longer. To serve, turn out on small platter and carefully remove wax paper. Cut in slices and serve plain or with whipped cream. Serves 8. For blueberry refrigerator cake, use 2 cups blueberries in place of blackberries.

Picnic Beans

1 1-pound 14-ounce can baked beans with molasses and pork
2 tablespoons dark brown sugar
Dash of salt
¼ teaspoon dry mustard
1 14-ounce can Hawaiian pineapple gems
2 tablespoons sirup drained from gems
4 slices bacon, if desired.

Pour beans into an oven casserole or 4 individual casseroles. Add brown sugar, salt, mustard, pineapple gems which have been drained and 2 tablespoons of the pineapple sirup. Mix well, cover and bake in a moderately hot oven (375° F.) for 25 to 30 minutes or until beans are very hot. Beans may be topped with bacon slices before placing in the oven, if desired. Wrap casserole in heavy layer of newspapers before placing in picnic basket. This will keep beans warm for one to two hours.

Yield: 4 generous servings.

Holiday Coffee

You can urge your Labor Day guests to indulge in second cups of coffee without worrying over sleeping problems if you serve the decaffeinated kind. For a spicy novelty, place a piece of stick cinnamon on each saucer to use instead of a spoon for stirring.

Use one well rounded tablespoon drip grind decaffeinated coffee for each cup (½ pint) of boiling water. Preheat drip coffee pot. Put coffee in upper compartment of pot. Pour fresh, briskly boiling water over it. Cover and let stand in warm place until all water has dripped through once. Remove upper compartment and cover pot. Serve.

The contest emphasizes speed, with workmanship taken into consideration only in event of a tie for speed honors.

Impulses Influence Life

It is much easier to act firmly and bravely under a strong impulse than it is to restrain an impulse when called upon to do so. Of all the battles of life there is not one that requires so much real courage as that silent battle with self, which every dutiful person finds it frequently necessary to wage

'In France's Fields'

Every American is familiar with John McCrae's World war poem "In Flanders' Fields"; but not many know that he himself was killed in 1918 and was buried in a quiet little war cemetery at Wimereux, France, where hundreds visit his grave every year.

DALY CITY - COLMA PTA NEWS

More Than 300 Youngsters Attend Social

More than 300 youngsters tumbled over one another to reach the pink lemonade and frosted cake in last Wednesday's mammoth General Pershing social.

From babies in arms to high school students, every child present voted it a really wonderful party.

Amusing life-sized scarecrows grinned upon the festivities from the corners of the room, while gay crepe paper festoons hung overhead. Many of the children were wearing bright costumes.

Genial Bruce H. Boynton, local recreation director, was a busy man as he presided as master of ceremonies. Keeping the music in full swing over the public address system was his assistant, Franklin Ny.

Also busy were the smiling ladies of the General Pershing PTA and the various mothers who comprised the refreshment committee. In charge of the games and program which contributed to the afternoon's hilarity were WPA Recreation leaders Miss Marie Bell and Mrs. Clara Mitchell.

A large percentage of mothers stopped in during the afternoon to enjoy the fun. Many of them expressed their appreciation for the fact that their children had been kept amused and occupied by the Pershing socials during the summer. All expressed their regret that the vacation parties were soon to end.

"Since I've attended this party," one mother was heard to remark, "I've been thinking it would be fun if the grown-ups could get together for an old-fashioned social, too."

Other mothers heartily endorsed the idea. Definite plans may be formulated later, according to Boynton, who in turn expressed his appreciation for the cooperation and support the department has received from the public.

"The Recreation committee has enjoyed sponsoring these Pershing socials," said Boynton, "and it is the hope of this department that similar worthwhile activities may be carried on throughout the winter."

Cottonmouth Moccasin

The cottonmouth moccasin is a dangerously poisonous snake generally of dark chestnut-brown with some darker barring and with yellowish-white stripes on the head and throat. The common name of this snake refers to the white lining of the mouth, which it is said to display before biting. Cottonmouths may attain a length of four feet. They are not aggressive and most cases of snake bite in which they are involved are due to the reptiles being stepped on

Troop 101 Whist Reported Success

The recent whist party sponsored by Boy Scout Troop No. 101 was an unqualified success, according to officials in charge. A large crowd enjoyed the evening of cards and the many worthwhile prizes awarded.

Cordial appreciation for the splendid cooperation shown by local businessmen, civic leaders and private citizens was extended today by chairmen of the event.

"It is the cooperation of the many people donating prizes and attending these parties that makes their success possible," Mrs. Frank Coughlin, chairman, said today. "Funds will be used for the benefit of the troop."

Poisonous Venom

The quantity of venom injected into a victim when bitten by a poisonous snake depends upon the size of the snake, the length of time the poison has been accumulating, the depth of the fang thrust and the location of the bite.

Flounder Houses

A flounder house is a house with one wall entirely blank, built against a party line, and a single pitch roof sloping downward toward the opposite, lower side, thus shedding water on the owner's property. This type was often used for the rear extension of residences. They were built during the Eighteenth century. There are some of them now in Alexandria and Philadelphia.

Volcanoes for Visitors

Stromboli, the volcano of the Italian Lipari islands, provides visitors with virtually continuous activity, providing hourly or two-hourly eruptions, of enough violence to give tourists a few moments of thrill as the glowing lava is shot up from the core of the earth.

Miss Bertini Bride Of A. Pedreddii

"I do:" were the words spoken by Miss Julia Bertini and Alfred Padretti at a beautiful wedding Sunday, August 18, in Holy Angels church, Colma.

Miss Bertini wore a lovely white satin dress with lace inserts, close fitting bodice and long sleeves which ended in points at the wrists. The veil fell to the floor in graceful folds. She carried a lovely old fashioned bouquet.

Miss Emelia Bertini, sister of the bride, was maid of honor. Her dress was pink satin, gathered at the waist and had huge puff sleeves. Upon her head she wore a large picture hat.

The bride's three attendants carried old fashioned bouquets of begonias and bouvardia.

After the ceremony a dinner dance was held at Lido's which was attended by about 100 guests.

Mr. and Mrs. Padretti left on a honeymoon tour of Southern California and upon their return intend to make their home in San Francisco.
